

I've had three or four Optometry students as tenants over the last couple years in my beautiful shared home in the North Bethesda area near Walter Reed Military Hospital. Each of these students "found" me through Craigslist which is a great advertising medium, but comes with it's own set of trust and relationship problems.

I am a retired Naval Officer and Dr. Girdher is my Optometrist at Walter Reed, she has all my information. The house I have available is set up as a share, rented to four individuals, each with their separate bedroom, sharing the common areas. All utilities are included, including cable, internet and WiFi. Rentals start at \$950 per month. Current tenants include a retired school teacher who grew up in Garret Park, she is long term and provides a wealth of local area knowledge; a medical student on rotation at Walter Reed; and two optometry students.

Pictures of the house can be seen at

The house is three miles from Walter Reed in a lovely tree lined neighborhood in Garret Park MD [<http://www.garrettpark-md.gov/>], an easy commute or even bike ride to work. There is parking available if the student has a car but the house is very close to Grosvenor RED Line Metro then only one stop to Medical Center/Walter Reed. This map illustrates the short walk to the Metro <http://goo.gl/maps/WZxL2>. The Metro also provides transportation to everything that Washington DC has to offer.

Please share this information with students who are coming to Walter Reed.
