

August 28, 2015

David Damari, O.D., Dean
Ferris State University Michigan College of Optometry
1124 S. State Street
MCO 231
Big Rapids, MI 49307

Dear Dr. Damari:

The Accreditation Council on Optometric Education (ACOE) reviewed the 2015 annual report of the professional optometric degree program at Ferris State University Michigan College of Optometry at its annual meeting on June 24-27, 2015 in Seattle, Washington and passed the following motion:

The 2015 annual report of the Ferris State University Michigan College of Optometry is accepted and the program thanked for submitting a comprehensive report. The Council finds that the program has met recommendation 2 from the last evaluation report. All recommendations are now met. The Council looks forward to receiving the program's next annual report due May 1, 2016.

The following is the status of recommendations from the most recent visit to your program. You are commended for meeting all of the recommendations from the last site visit.

Recommendation	Status	Date Met
1. The program must have a systematic curriculum review process for didactic and clinical education. (2.4)	MET	02 2015
2. The program must conduct an ongoing, planned quality assessment and improvement program which evaluates the health, eye and vision services provided. (8.2.5)	MET	06 2015

The date of the next currently scheduled site visit for Ferris State University Michigan College of Optometry is November 2021.

On behalf of the Accreditation Council on Optometric Education, I thank you for providing us with this update on the status of your program. I encourage you to contact me at the St. Louis address above if you have any ideas or suggestions on ways the Council can improve its process. I also invite you to visit our web site at www.theacoe.org to obtain the latest information about Council activities, process and standards.

Sincerely,

J. Bart Campbell, O.D., Chair
ACOE, Ms. Urbeck
