Ferris State University

Living Our Values.

Building on our strengths.
Maintaining our excellence.
Aspiring toward our creative and sustainable future.
At Ferris State University, everything we do starts with our Core Values. Collaboration, Diversity, Ethical Community, Excellence, Learning, and Opportunity are more than just words to us - they represent the driving force by which we operate.

Our Strategic Plan identifies focus areas for each of our Core Values. These areas together are our path for the future. Our focus areas call us to build on our strengths, maintain our areas of excellence, and aspire toward a creative and sustainable future.

This plan is a living document that operates in three parts. Part One represents our strategic thinking and focus areas for the future of Ferris. Part Two will detail the implementation phase of the plan. Part Three will track our successes and measure our accomplishments. This plan provides a framework that allows for each of us to contribute to our focus areas and realize our Core Values as individuals and colleagues working together for the future of our University.

We like to think of our Strategic Plan as Living Our Values in everything we do.
